SUMMARY

Full stack Developer with a strong focus on building scalable and high performance web applications. Experienced in working across the MERN stack to create efficient backends and responsive interfaces that deliver great user experiences

EDUCATION

Laxmi Institute of Technology, Sarigam GTU

Bachelor of Engineering, Computer Science

Vapi , Gujarat

june. 2022 – May 2025

Government Polytechnic Daman GTU

Diploma in Computer Science

Daman

june. 2019 – september 2022

EXPERIENCE

itsme Dezino

Jan 2025 – Jun 2025

Web Developer

Thane, Mumbai

- Learn to Built secure authentication and API integrations using MERN + JWT, enabling smooth client onboarding with zero manual credential management
- Delivered React/Next.js dashboard and custom websites for clients, reducing turnaround time for project reporting

Niket Communications and Security Systems

Sep. 2023 – Aug 2024

Junior Developer

Vapi, Gujarat

- Built Pricebook module inside SuiteCRM, automating pricing logic across accounts and eliminating manual data entry for the sales team.
- Developed AMC auto renewal scheduler that prevented missed renewals and improved customer retention without manual follow-up.
- Created a real time task workflow system with desktop notifications, speeding up team coordination and issue resolution

PROJECTS

Grocery Ecommerce 🌀 | *React - Zustand - Laravel - SQL*

Nov 2025 – Dec 2025

- Developed the frontend for a grocery Ecommerce store using React.js, creating a clean, intuitive interface for product browsing and checkout
- Managed global state efficiently with Zustand for cart, user preferences, and inventory, while building reusable, mobile-first UI components

Job Importer System 🌀 | *NodeJS - ExpressJS - MongoDB - Redis - NextJS - JWT*

Oct 2025 – Nov 2025

- Developed an automated job fetching and logging system; implemented robust error handling to ensure reliable data imports
- Optimized background processing, reducing API failure rates and improving system efficiency

Task Management 🌀 | *NodeJS - ExpressJS - MongoDB - NextJS - JWT*

Sep 2025 – Sep 2025

- Developed a secure, role-based task management platform enabling users to create, assign, and track tasks in real time
- Designed a responsive and intuitive interface for efficient workflow management

Real-Time Chat App 🌀 | *NodeJS - ExpressJS - MongoDB - NextJS - JWT - WebSocket*

Jul 2025 – Sep 2025

- Developed a real-time chat application enabling smooth, low-latency communication for users
- Implemented JWT authentication, message persistence with MongoDB, and a responsive React UI for a seamless experience

TECHNICAL SKILLS

Frontend: React.js, Next.js , Material UI, Daisy UI Bootstrap, TailwindCSS, JavaScript (ES6+)

Backend: Node.js, Express.js, REST API Development, JWT Authentication

Databases , ORMs: MongoDB, MySQL, PostgreSQL, Prisma ORM

Development Tools: Git, GitHub, Postman, VS Code
