SUMMARY

Full Stack Developer with a strong focus on building scalable and high performance web applications. Experienced in working across the MERN stack to create efficient backends and responsive interfaces that deliver great user experiences.

EDUCATION

Laxmi Institute of Technology, Sarigam GTU <i>Bachelor of Engineering, Computer Science</i> Graduated with a strong foundation in software development principles, focusing on web technologies, database design, and algorithmic problem solving	06/2022 – 05/2025 Vapi , Gujarat
Government Polytechnic Daman GTU <i>Diploma in Computer Science</i> Gained hands on experience in programming fundamentals, system design, and database management	06/2019 – 09/2022 Daman

EXPERIENCE

itsme Dezino <i>Web Developer</i> <ul style="list-style-type: none">Delivered React/Next.js dashboard and custom websites for clients, reducing turnaround time for project reporting.Learn to Built secure authentication and API integrations using MERN + JWT, enabling smooth client onboarding with zero manual credential management.	01/2025 – 06/2025 Thane, Mumbai
Niket Communications and Security Systems <i>Junior Developer</i> <ul style="list-style-type: none">Built Pricebook module inside SuiteCRM, automating pricing logic across accounts and eliminating manual data entry for the sales team.Developed AMC auto renewal scheduler that prevented missed renewals and improved customer retention without manual follow-up.Created a real time task workflow system with desktop notifications, speeding up team coordination and issue resolution	09/2023 – 07/2024 Vapi

SKILLS

Frontend React.js, Next.js, Angular (Basics), Material UI, Bootstrap, TailwindCSS, JavaScript (ES6+)	Backend Node.js, Express.js, Laravel (Basics), REST API Development, JWT Authentication, OAuth 2.0
Databases & ORMs MongoDB, MySQL, PostgreSQL, Prisma ORM	Tools Redis, BullMQ, Git, GitHub, Postman, VS Code
Core Competencies Full Stack Web Development (MERN), API Design, Server Side Logic, Real Time Applications, Scalable Architecture, Workflow Automation	

PROJECTS

Real-Time Chat App 🔗 <i>NodeJS – ExpressJS – MongoDB – NextJS – JWT – WebSocket</i> Developed a real time chat application enabling smooth, low latency communication for users. Implemented JWT authentication, message persistence with MongoDB, and a responsive React UI for a seamless user experience.
Task Management 🔗 <i>NodeJS - ExpressJS - MongoDB - NextJS - JWT</i> Developed a secure, role based task management platform Enabled users to create, assign, and track tasks in real time, improving project visibility and team coordination. Designed a responsive and intuitive interface for efficient workflow management
Job Importer System 🔗 <i>NodeJS - ExpressJS - MongoDB - Redis - NextJS - JWT</i> Developed an automated job fetching and logging system Implemented robust error handling to ensure reliable data imports. Optimized background processing, reducing API failure rates and improving system efficiency
